Treats for Birthdays / Celebrations

Dear families,

You and our students are very kind. When a child's birthday comes around, that child often brings something for the class to share. This is very generous and our students are very grateful.

At this time, with the current COVID-19 restrictions, we are unable to distribute foods that are unwrapped or could be accidentally touched by others.

If students come to school with 'unwrapped' items, we will ask the student to take these items back home at the end of the day.

We understand that these treats are provided with the best intentions. We need to be extra careful at this time. Please know that we absolutely understand the intention of the treats.

In an attempt to be clear, I have included a couple of pictures of items that are being received very regularly. If you are unsure, please contact your child's teacher or the front office.

Yes, these are wrapped and can be distributed to students.

No, although these are sent to school in a packet, the food substance can be touched accidentally before getting to a student.

Thank you for your understanding.

Rebecca Webster
